

Celebration for becoming Public!

JCOF.PK 

We wish to share our excitement and pride with all our affiliates and therefore we are pleased to announce the JavaFit Executive Partnership Program that will begin immediately. *Here's how it works:*

■ We are launching the Executive Partnership Program as follows:

1. The program will run until **December 31, 2009**.
2. For every Executive Pack placed, **JavaFit will add 1000 points to your stronger volume leg!** We want to help you jump start your binary volume. *(Founder Executive & Executive Plus Executive packs do not qualify.)*

PLUS! To reward the purchase of the executive pack, the new Executive Pack Purchaser will have 1000 points added to their forecasted stronger volume leg. (For example, if they are on the sponsor's right leg, their forecasted stronger volume leg is on the right, and thus the same for the left.) *Note: These points do not flow up line but are added to the points counter of the person buying the exec pack and the seller only.*

If someone purchases a **Manager Pack**, we will **add 500 points to the seller and buyer** as above.

3. Business builders and Managers with a join date prior to September 22, 2009 that place two Executive Packs will have their **rank upgraded to Executive**.
4. **\$50 additional bonus** to the sponsor for every Executive Pack placed. The first level fast start bonus for the sponsor with an Executive Rank will be \$225 instead of \$175.

■ Earn JavaFit stock (JCOF.PK) through the Executive Partnership Program as follows:

1. **Every affiliate that sponsors 5 new affiliates via the Executive Partnership Program will earn 2500 stock options (good for 5 years)!** The options will be priced at the market price on the day you sponsor the 5th affiliate. If that day falls on a weekend the option will be priced on the next day that the market is open for trading.
2. **Once 5 new affiliates have been sponsored you will earn 500 stock options (good for 5 years) for each Executive sign up.** These options will be issued on 12/31/2009 which is the conclusion of the program. There is no cap to how many options you can earn.
